

ST940

Waterproof Asset / Personal Mini Tracker

Key Features

- Battery-powered Mini Tracker
- Extremely low power consumption
- Compact size for covert tracking
- Versatile usage for assets / person / vehicles / motorcycles
- Waterproof compliant : IP65 / IP66 with Holder
- Battery alert
- Built-in 3-axis accelerometer for motion detection
- Baby's palm-size versatile mini tracker
- LED Indication : GPS/GSM/Battery status

ST940

Waterproof Asset / Personal Mini Tracker

Specifications

● Frequency / Sensitivity	GSM 850 / 900MHz -104dBm DCS1800 / PCS1900MHz -102dBm TCP, SMS, (UDP is optionally available.)
● GPRS Communications	Multi-slot Class 12
● GPRS	Support all 4 coding schemes (CS-1, CS-2, CS-3 and CS-4)
● Command/ Report sent via SMS	Supported
● AT Command	GSM 07.07, 07.05
● Back-up Server	Supported
● Panic button	Supported
● GPS Receiver	56 channel GPS GPS & QZSS
● GPS Sensitivity	-162 dBm (for tracking)
● A-GPS	available
● Dimension	50.5 (W) x 75(L) x 22.5 (T) mm
● Weight	88 g(without Holder), 200 g (with Holder)
● Battery	eable 1,500 mAh Li-ion Battery
● Battery Endurance Time (*)	Reporting once a day: Approx 1(one) year Reporting every 5 minutes: 162 – 180 hours Reporting every 10 minutes: 235 – 270 hours
● Electric Protection	Protection against ESD
● Operational Temperature	-20°C ~ +60°C
● User Interface	Power Button / Panic Button Charger Adaptor, Charger Cable
● Motion Detecting and alarming	Supported with Built-in 3-axis Acceleration sensor
● Scheduled Turn-off / on	available as pre-defined
● Geo-fencing	Supports max. 200 Geo-fence zones
● Certificates	CE, FCC, RoHS, Telcel, ANATEL

(*) Reference only. It varies subject to the environment.
